

WE GO HYBRID!

EUROPEAN NDT&CM2021 PRAGUE, CZECH REPUBLIC OCTOBER 4-7, 2021

BETTER CM & NDT – WARRANTY OF QUALITY,
RELIABILITY AND SAFETY

FOUR NDT, CM AND SHM EVENTS
IN ONE WEEK IN THE MIDDLE
OF THE EUROPE

Dear NDT&CM participants, Dear NDT&CM community!

The situation changes almost every day around the evolution of the COVID-19 pandemic; however, we all expect that the ENDT & CM 2021 event will take place in a „normal“ (in the context of today) regime. We expect the situation to improve significantly over the summer, yet with the current progress on vaccination and travel restrictions issued by some major companies and universities, it would be naive to think that our ENDT&CM 2021 could be completely „normal“.

As a positive step towards potential participants and in view of the above, the Organizing Committee decided to organize this international event (NDT in Progress, NDE & CM for Safety) partly in **hybrid format** (virtual and present).

As the majority of the NDT conferences in 2021 have been cancelled or postponed, **the 2nd European NDT & CM Days** will be one of the most important NDT, CM, SHM (and other related branches) **WORLD EVENTS in 2021**. We hope that the Conference will not only be an opportune time for exchanging research findings but also an occasion for strengthening existing contacts and establishing new ones for all participants.

THE CONGRESS WILL BE HELD ON OCTOBER 4-7 in the new venue City Conference Centre in Prague.

Monday, 4 th 2021	Tuesday, 5 th 2021	Wednesday, 6 th 2021	Thursday, 7 th 2021
	NDT Progress		
	NDE & CM for Safety		
		Defectoscopy	
		NDT& CM Expo	

ENDT&CM 2021 will be the biggest European event in years, so we hope to meet you there in good health!
